

Register of CMets

Chartered Meteorologists are expected to provide a high-quality service based on their experience and expertise. The service is often provided to those not specialists in the subject.

Chartered Meteorologists may use the post-nominal CMet in their professional activities.

Find a chartered meteorologist here:

NOTE: The Society does not provide any guarantee of the quality of individual work by accredited meteorologists. Those who provide professional services on their own behalf to third parties are responsible for their own work and professional indemnity cover.
