

## Local Centres

Like the Society itself, Local Centres are particularly dependent on the active participation of members. The Royal Meteorological Society has several local centres where meetings are held throughout the year with these based in Bath, Birmingham, Durham, Edinburgh, Leeds, Manchester, Norwich, Reading and Wales (Cardiff, Chester and Swansea).

Volunteering at a local centre is a great opportunity to network and share your interest of meteorology with like-minded individuals. To see upcoming local centre meetings, [click here](#).<sup>[1]</sup>

If you would like to volunteer or have any questions, please email: [meetings@rmets.org](mailto:meetings@rmets.org) <sup>[2]</sup>.

The Society encourages the formation of new Local Centres, especially for those members who cannot often travel to London or the existing Centres.
